Tabital Pay customer app: prototype

Vault design, Android first

3 Oct 2026

12 screens. Sample: a GHS 4,000 phone on Pay in 4 with 40% down, plus a GHS 50 delivery fee paid with Payment 1. In the real app every amount comes from the server.

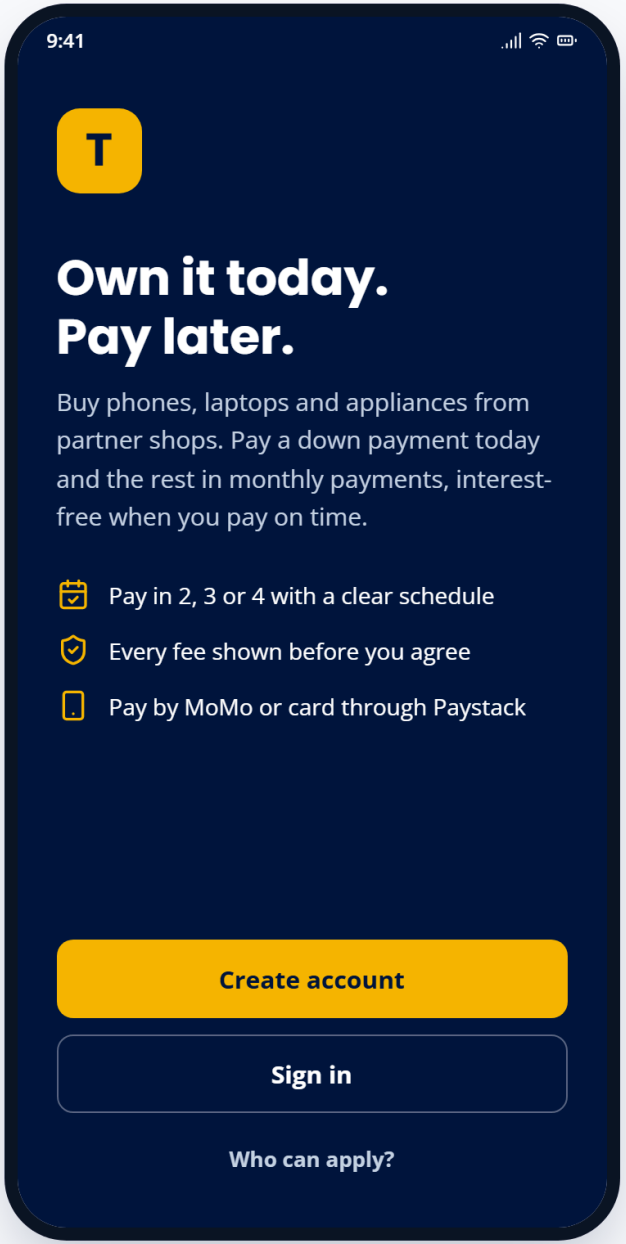

info@tabitalpay.com · tabitalpay.com

S1

Welcome

"Own it today. Pay later." Buy phones, laptops and appliances from partner shops: a down payment today, the rest monthly, interest-free when paid on time.

Create an account, sign in, or check who can apply.

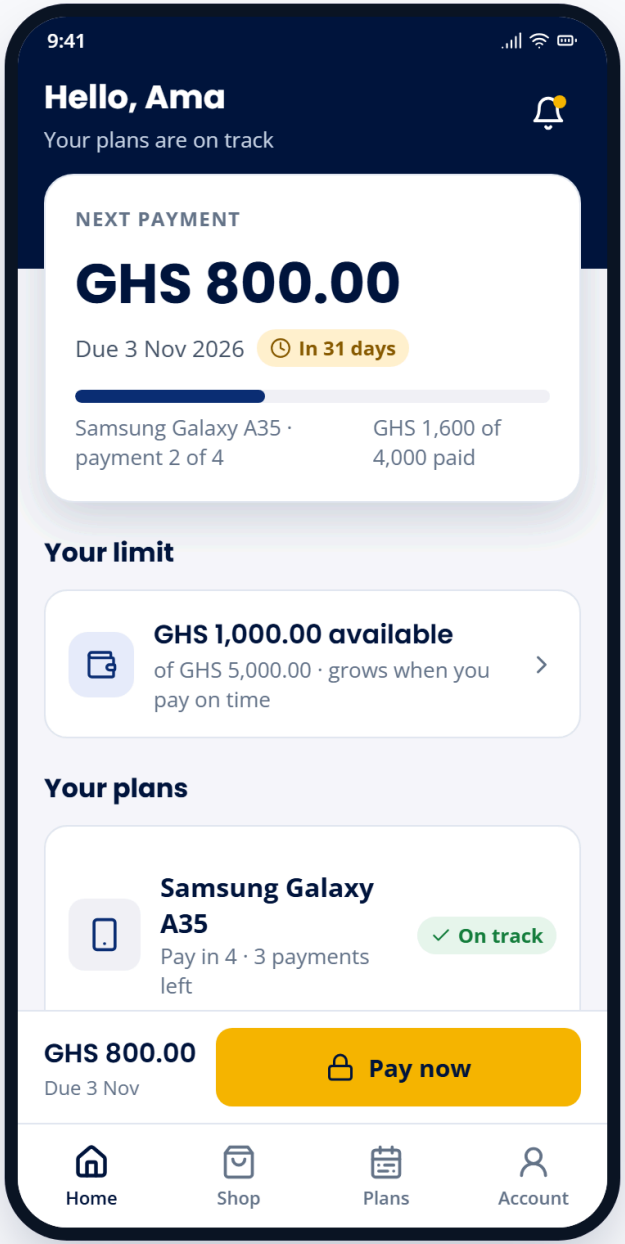

S4

Home

A large next-payment card (GHS 800.00, due 3 Nov 2026) with plan progress, the limit available and the customer's plans.

A sticky pay bar keeps "Pay now" one tap away.

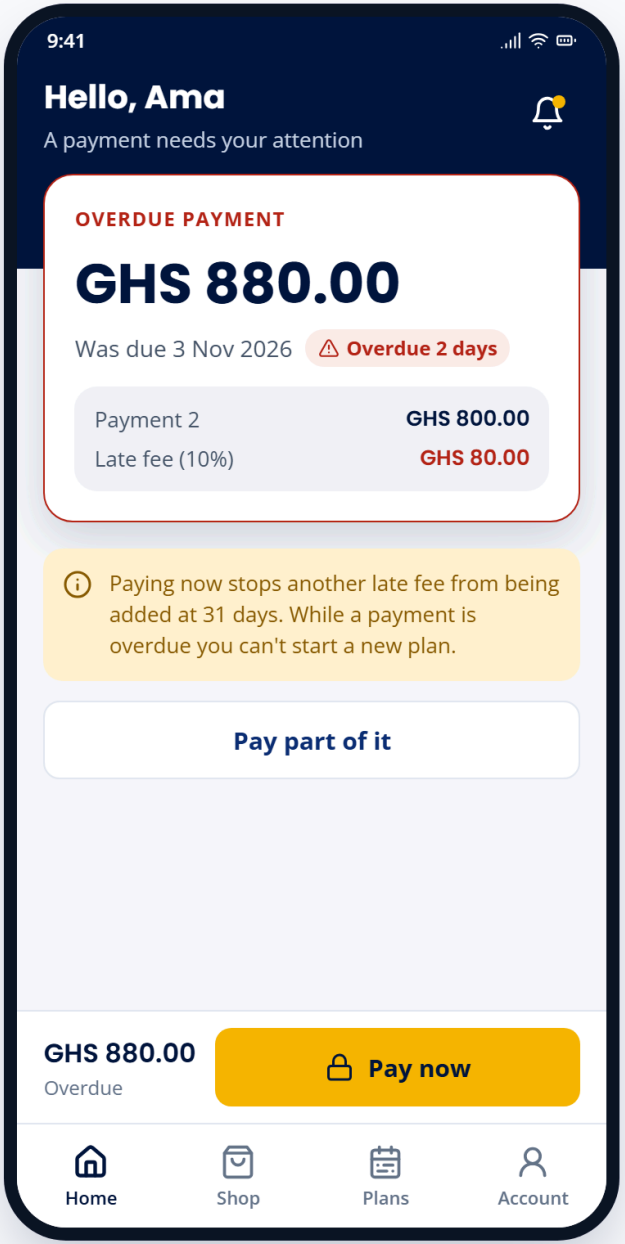

S4

Home when a payment is overdue

The card turns to an overdue payment of GHS 880.00: payment 2 plus a 10% late fee of GHS 80.00.

Paying now stops another late fee at 31 days; no new plan while a payment is overdue. The customer can also pay part of it.

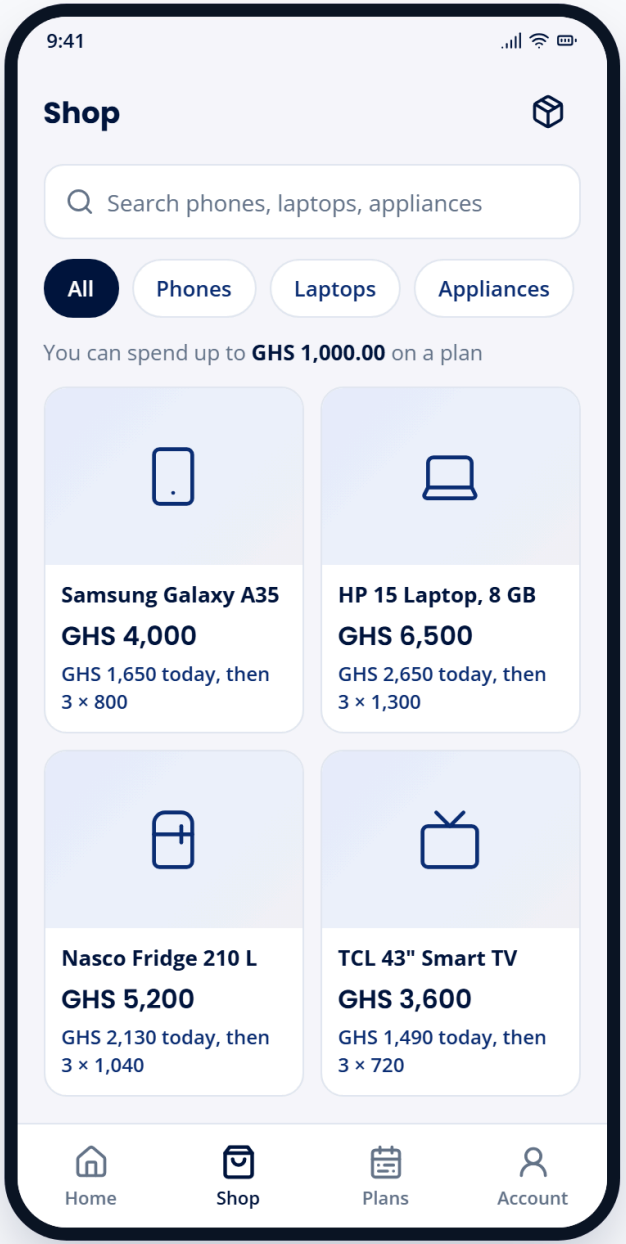

S5

Shop

Search and browse phones, laptops, appliances and tablets, with the spending limit shown (GHS 1,000.00).

Each product shows what is due today, then the monthly payments.

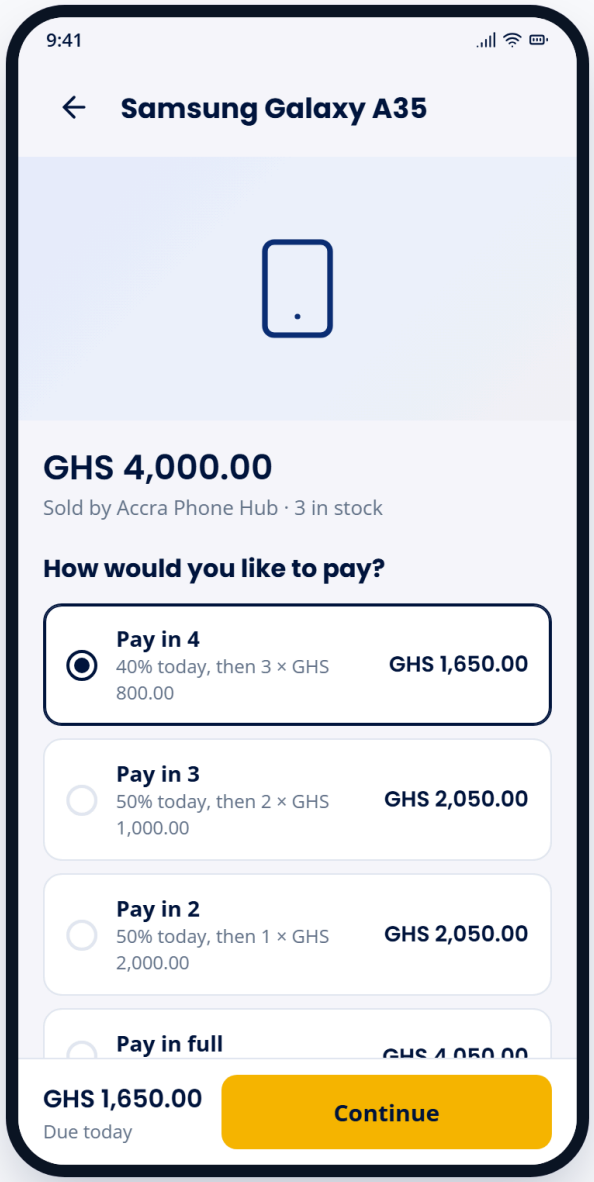

S6

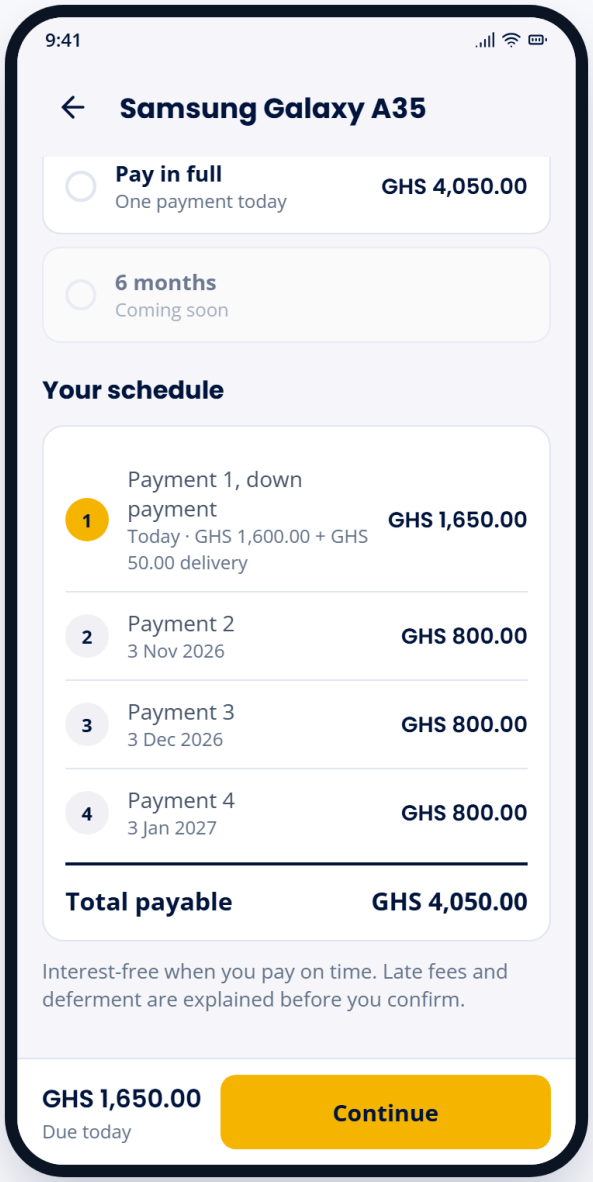

Product and plan picker

Choose Pay in 4, Pay in 3, Pay in 2 or Pay in full; the 6-month plan shows "Coming soon".

The full schedule and the total payable (GHS 4,050.00) update with the plan before Continue.

As it opens

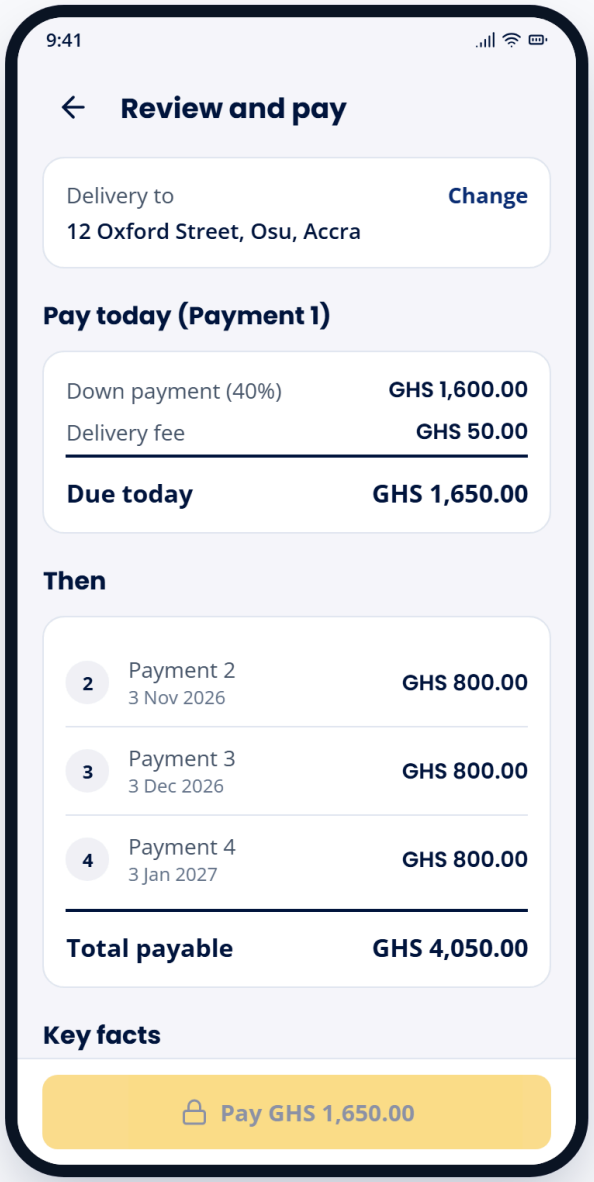

Scrolled to the end

S7

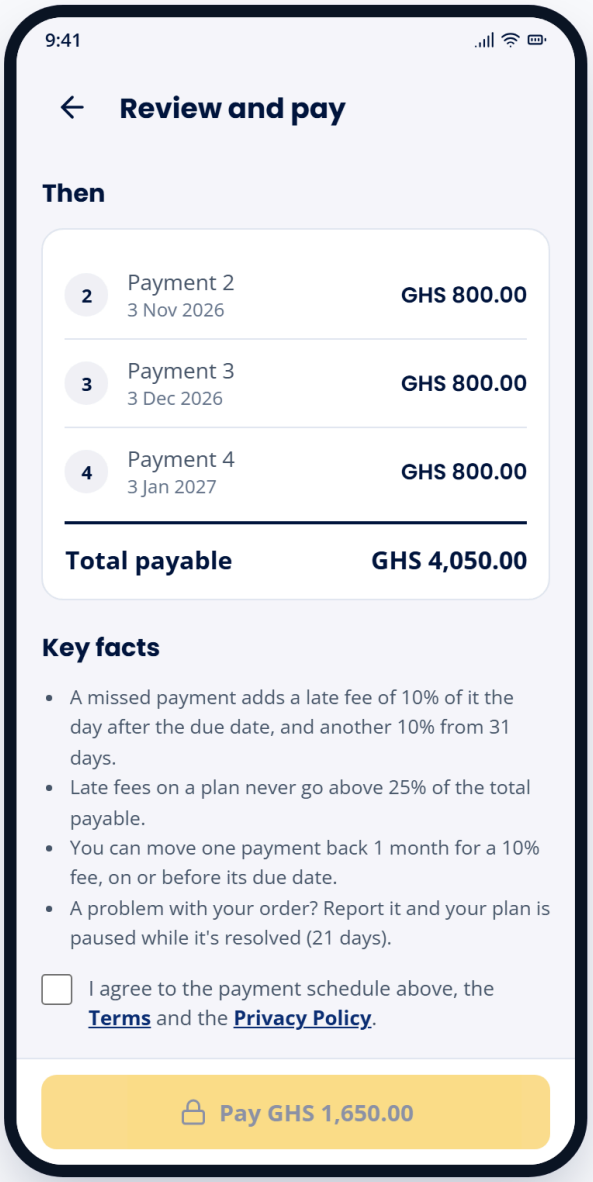

Review and pay

Payment 1 today: 40% down payment (GHS 1,600.00) plus GHS 50.00 delivery = GHS 1,650.00, then 3 × GHS 800.00. Total payable GHS 4,050.00.

Key facts on late fees, the 25% cap, deferment and disputes; Pay unlocks only after agreeing to the schedule, Terms and Privacy Policy.

As it opens

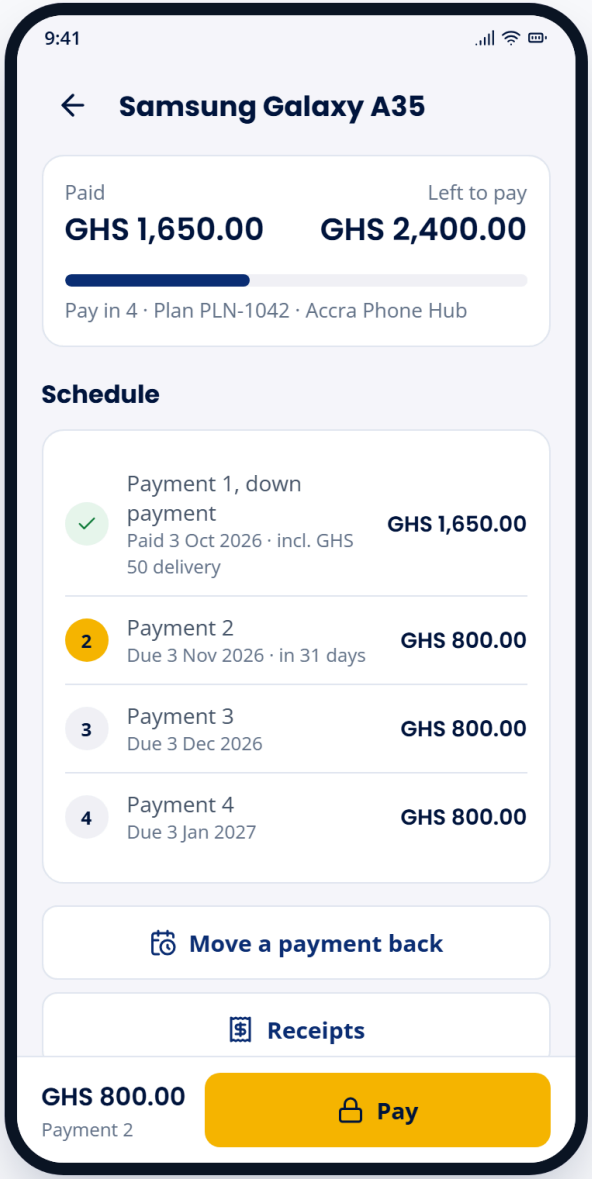

Scrolled to the end

S10

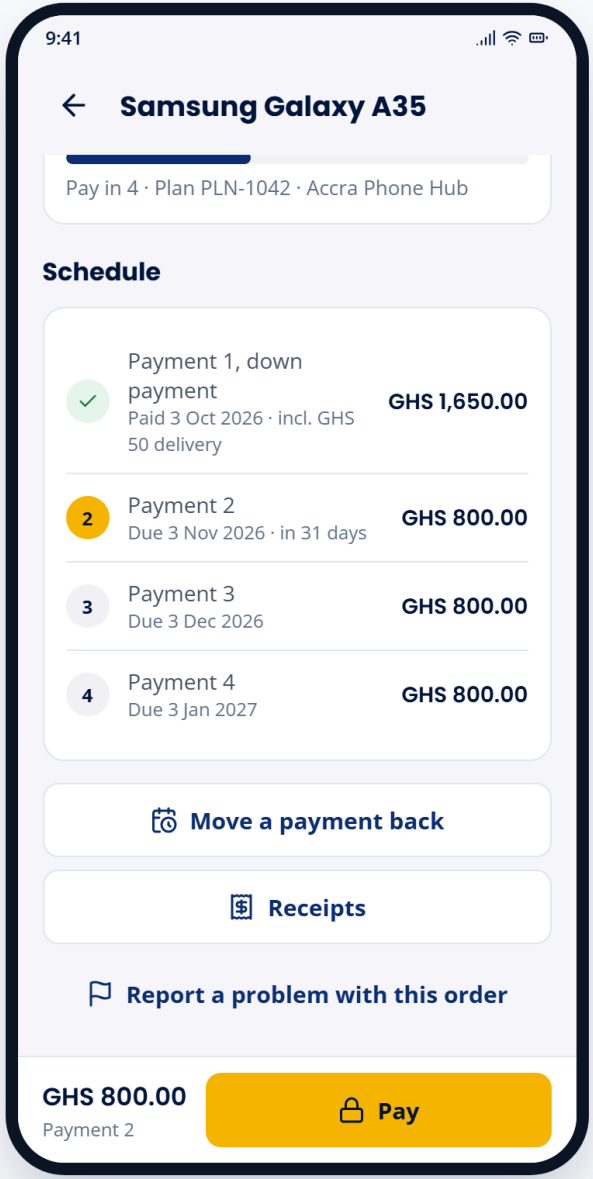

Plan detail

What is paid and what is left, with the full schedule and the status of each payment.

Actions: move a payment back, receipts, and report a problem with the order.

As it opens

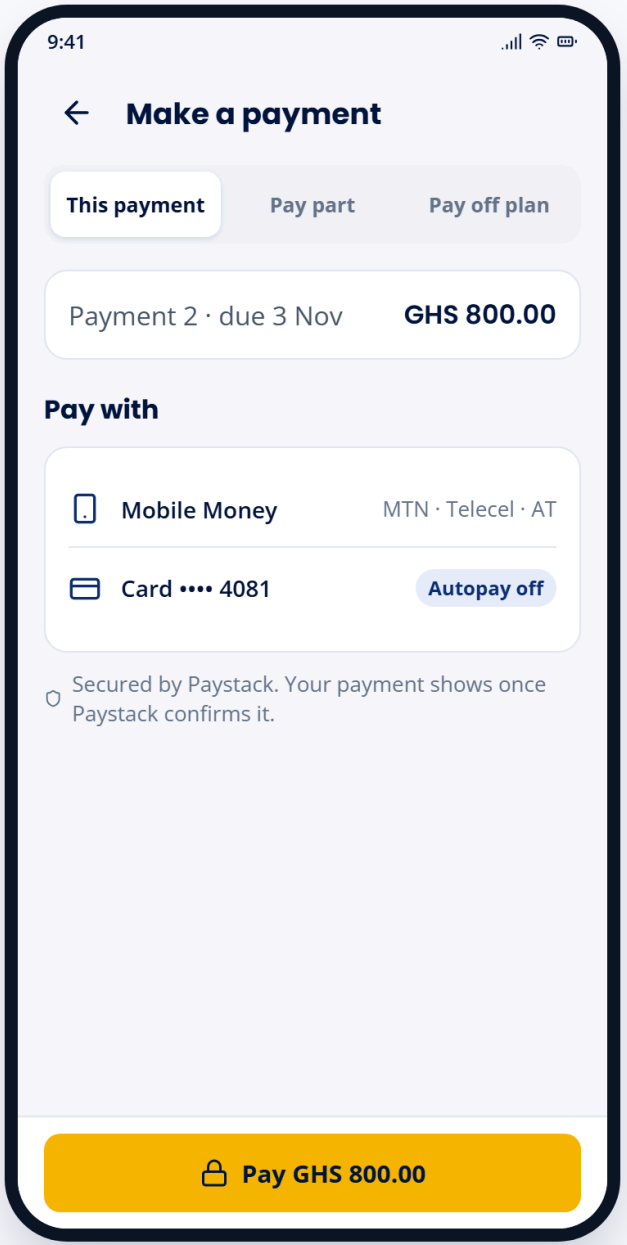

Scrolled to the end

S11

Make a payment

Pay this payment, pay part of it, or pay off the plan with no extra charge for paying early.

Mobile Money or card, secured by Paystack; the payment shows once Paystack confirms it.

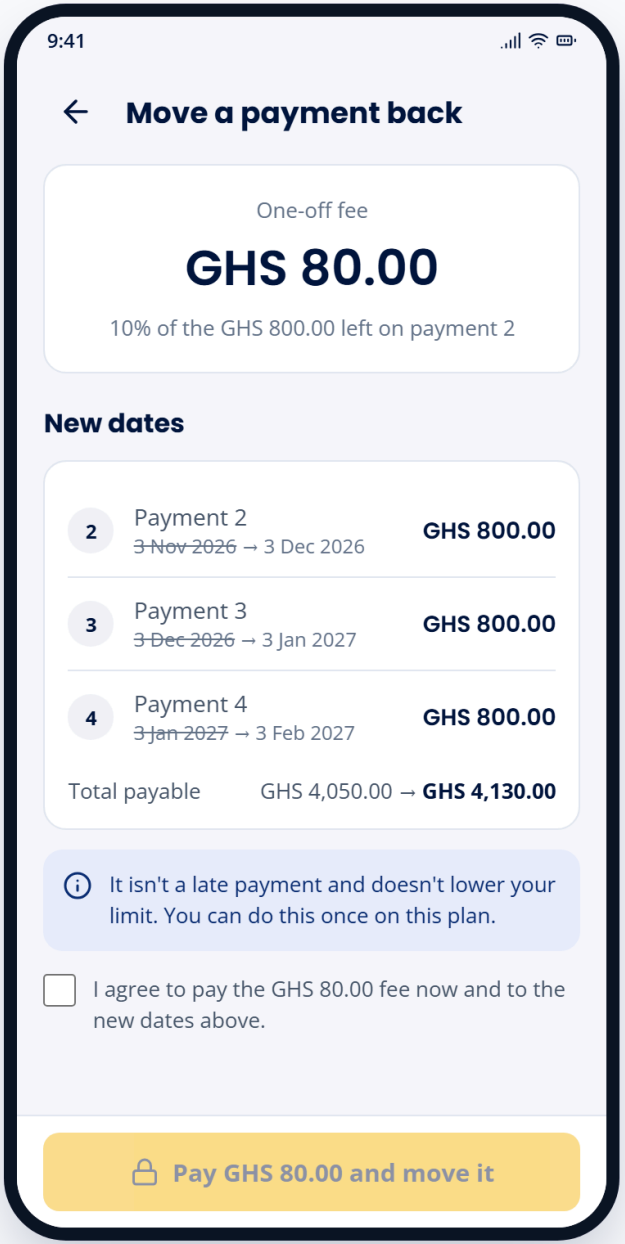

S12

Move a payment back

A one-off fee of GHS 80.00 (10% of the GHS 800.00 left on payment 2) moves it and the later payments back 1 month. Total payable goes from GHS 4,050.00 to GHS 4,130.00.

It isn't a late payment and doesn't lower the limit; allowed once per plan.

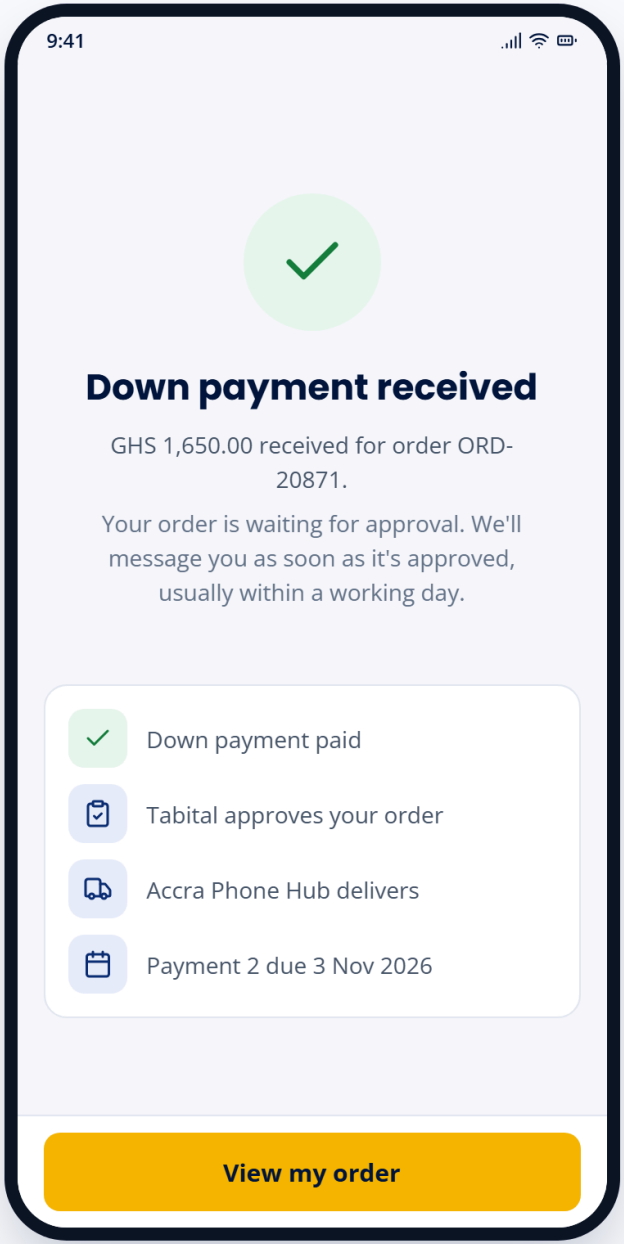

S9

Payment result

After Paystack: "Down payment received", GHS 1,650.00 for order ORD-20871, now waiting for approval.

Next steps: Tabital approves, Accra Phone Hub delivers, payment 2 due 3 Nov 2026.

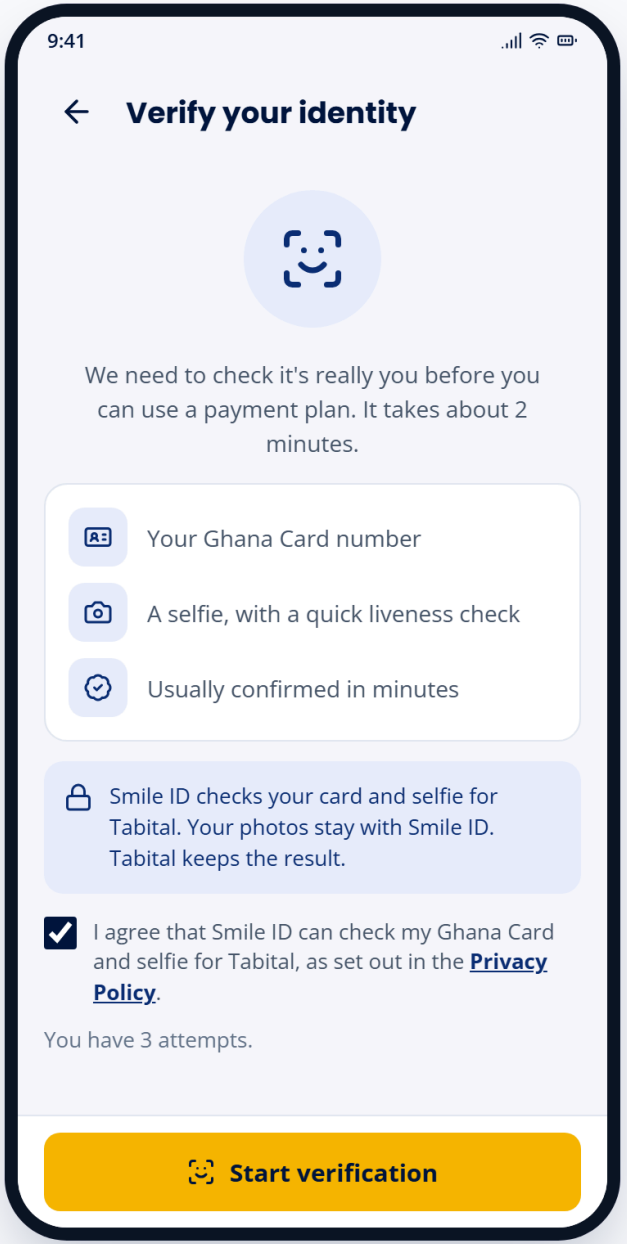

S13

Verify your identity

Smile ID checks the Ghana Card number and a selfie with a liveness check; it takes about 2 minutes.

Photos stay with Smile ID and Tabital keeps the result. Consent checkbox; 3 attempts.

S14

Your limit

GHS 1,000.00 available of a GHS 5,000.00 limit, Medium tier.

Explains how it grows with plans paid on time, drops with late payments, and pauses new plans while a payment is overdue.
